Re: Sierra Valley GSP – Planning Committee and Outreach Update

The Planning Committee is submitting the following informational items as a monthly update for July 2023.

PLANNING COMMITTEE UPDATE

The Planning Committee met on July 6th with agenda items focusing on administrative tasks and funding opportunities.

1. Administrative Action Items

- Data Management System and Reporting: Jenny is working with Gus to adjust past reading dates to align with monthly reports.
- SOQ Review: Some final questions of clarification are being addressed. The evaluation panel is preparing to present the recommendations for the list of qualified firms.
- Some technical tasks are underway to 1) support identification of a location for the DWR monitoring well and 2) prepare documentation for, and confer with, the State Water Board for recharge permits. At the July Board meeting, LWA will present a proposal for performing these tasks.

2. Implementation Funding

The grant summary table has been updated with the following:

- A complete application will be submitted to the Plumas Watershed Funding Forum by the end of July.
- California Department of Fish and Wildlife awarded the District \$809,000 for planning and CEQA documentation for the Badenaugh-Smithneck recharge project. Documentation is before the Board to execute the agreement.
